

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph starting at page 14, line 3, as follows:

Specific examples of a polymer having a monomeric unit containing an adamantyl group suitable as an alicyclic group include 1-perfluoroadamantyl ~~meta~~acrylate methacrylate having a monomeric unit represented by general formula (2) and a polymer having a monomeric unit derived from 3-hydroxy-1-perfluoroadamantyl acrylate having a monomeric unit represented by general formula (3). Note that, m and n in the formula below are integers.
